I am pleased to introduce this calendar, on the Mediterranean diet, produced by A.Menarini Pharmaceuticals Ireland Ltd in conjunction with Irish Medical Times, with the recipes compiled by Dietitian Paula Mee.

In the healthcare context, the major target in the battle against cardiovascular disease for the year ahead must be hypertension. Approximately 30 per cent of all adults in Ireland have hypertension and this figure doubles after the age of 60 years, with more than 20 per cent of deaths caused by poorly-controlled hypertension. High blood pressure is the most frequent treatable risk factor for cardiovascular disease, stroke and death, and is a major source of healthcare expenditure.

Blood pressure control in Ireland is abysmally low, with less than half the patients on treatment achieving normal blood pressure. While the control of hypertension requires blood pressure-lowering medication, in most cases attention to lifestyle measures that may improve cardiovascular outcome must be encouraged. One such measure is to give consideration to the food we eat and the evidence is growing that the Mediterranean diet may be not only a way of improving health, but also a very pleasant way of doing so.

There are many hundreds of scientific publications attesting to the association of the Mediterranean diet and lifestyle with health. Key features of a traditional Mediterranean diet are the use of olive oil as the principal component of fat, relatively high consumption of fresh fruit (which constitutes the typical dessert), abundant and variable plant foods, high consumption of cereals, vegetables, fish, whole grains, legumes and nuts, low consumption of red meat and dairy produce (principally cheese and yogurt), and moderate alcohol consumption with meals.

The benefits of a Mediterranean diet are seen mainly, but not exclusively, in cardiovascular disease. For example, the Seven Countries Study showed that Cretan men had exceptionally low death rates from heart disease, despite a moderate-to-high intake of fat. Controlled trials showed that a Mediterranean-style diet was associated with favorable changes in body weight, body mass index, systolic and diastolic blood pressure, heart rate, fasting plasma glucose, total cholesterol and high-sensitivity C-reactive protein, which may all affect the incidence of cardiovascular disease. In a secondary prevention trial in myocardial infarction patients, a Mediterranean-style diet was associated with a 73 per cent lower risk of cardiac death and non-fatal myocardial infarction. Other illnesses that appear to benefit from a Mediterranean diet include Parkinson’s disease, Alzheimer’s disease, cognitive impairment, and the metabolic syndrome.

Another factor influencing benefit may be the healthy lifestyle that is so characteristic of certain Mediterranean cultures, where physical exercise is part of the way of life and work.

Whatever the scientific discussion on the benefits of the Mediterranean diet – and it will go on for many years – there is certainly sufficient evidence to recommend the Mediterranean diet as a very pleasant culinary experience that may confer more than just gastronomical satisfaction.

**SEA BASS EN PAPILLOTE WITH MARJORAM AND LEMON**

**Serves 4**
Preheat 190˚C/gas mark 5

**INGREDIENTS**
- 4x150g sea bass fillets, skinned
- Olive oil for brushing
- 1 carrot, peeled and finely shredded
- 2 celery sticks, finely shredded
- 4 spring onions, trimmed and finely shredded
- 2 tbsp chopped fresh marjoram

2. Season the fillets with salt and pepper. Mix the vegetables together in a bowl and season with salt and pepper. Divide the vegetables between the parchment sheets, keeping them to one side of each rectangle of paper to make a bed for the bass fillets.
3. Loosely fold the free half of the parchment over the fish and twist or fold the edges tightly together to seal. Lay the packets on a baking tray and bake in the oven for 15 minutes. (Reduce cooking time if fillets are smaller.)
4. Serve immediately on warm plates, allowing everyone to open their packages at the table.

Hake with Mussels, Asparagus, Peas and Parsley

Try serving this healthy fish dish with a new potato salad. Cook baby potatoes, allow to cool and cut in half. Toss through a little rapeseed oil, chopped spring onions, chopped parsley and wholegrain mustard.

Serves 4

**Method**

1. Season the pieces of hake generously on both sides with salt and set aside for 10–15 minutes.

2. Drop the asparagus tips into a pan of well-salted water and cook for 2 minutes until just tender. Add the peas, bring back to the boil, drain and refresh under running cold water. Leave to drain.

3. Dust the hake pieces in flour and shake off excess.

4. Heat 4 tbsp olive oil in a large frying pan over a medium/high heat. Add the hake and fry for 2-3 minutes on each side until golden brown on the outside, but not quite cooked through. Lift out onto a plate and set to one side. Wipe the pan clean.

5. In the same pan, add the remaining olive oil and garlic and shallots and fry over a medium heat for 3 minutes or until soft and lightly golden. Stir in the 1 tbsp flour, then gradually stir in the wine and stock to make a smooth sauce. Bring to a simmer. Return the hake to the pan and cook for 1 minute. Add the clams, cover and cook for 2-3 minutes until all the clams have opened and the fish is cooked through.

6. Uncover and scatter over the asparagus tips, peas and parsley. Simmer for a minute or two until the vegetables have heated through.

7. Taste the sauce, adjust the seasoning to taste and serve.

**Ingredients**

- 4 x 175-200g pieces skinned hake fillet, cut 2-2.5cm thick
- 200g asparagus tips, each about 8cm long
- 250g peas, fresh or frozen

BEEF CARPACCIO WITH MARINATED BEAN SALAD

Serves 4

METHOD

1. Bring large pot of salted water to the boil. Drop in the beans and cook for about 5 minutes. When perfectly done, drain them in a colander.

2. To make the marinade, mix the chopped shallots or onion in a bowl with the herbs, mustard, vinegar and 4 tablespoons of extra virgin olive oil. Season with salt and pepper to taste, then add the hot cooked beans and toss. Put to one side to allow the beans to cool down and take on all the fantastic flavours.

3. Place the beef fillet on a chopping board and season it all over with salt and pepper. Run the thyme sprigs under hot water for a few seconds – this will help to release their fragrant oils. Strip the leaves from the stalks and chop them up roughly. Sprinkle the thyme over the fillet, then roll the meat around the chopping board so that any excess seasoning and herbs stick to it.

4. Get a heavy frying pan very hot and add a splash of oil, followed by the beef fillet. Fry for 1 minute only, turning it every few seconds to sear and encrust all the lovely flavourings onto it. Take the meat out of the frying pan and put it on to a plate to rest for a minute. (Once seared, you can serve straight away or you can keep the meat covered on a plate until needed. I prefer not to keep it in the fridge.)

5. Slice the seared fillet with a sharp knife. Lay each slice on a board and flatten as much as you can by pressing down on them with the side of a chopping knife – it works a treat. Lay two or three slices out flat on each plate. Season again lightly and place a pile of beans on top, spooning over some of the marinade. Sprinkle over any leftover herb leaves and drizzle with some good extra virgin olive oil.

INGREDIENTS

• Sea salt and freshly ground black pepper
• 250g green or mixed beans, topped but not tailed
• 1 x 300g piece of beef fillet
• A few sprigs of fresh thyme
• Olive oil

For the marinade

• 2 small shallots or ½ a small red onion, peeled and very finely chopped
• A handful of fresh soft herbs (chervil, parsley, yellow inner celery, tarragon), leaves picked and chopped
• 1 teaspoon Dijon mustard
• ½ tablespoons white wine vinegar
• 4 tbsp extra virgin olive oil

METHOD
1. Pre heat your oven to 180°C/gas mark 4.

2. Firstly, make the stuffing for the pork. Place the hazelnuts onto a baking tray
and bake in the oven for 8 minutes. Remove from the oven, allow to cool
and then roughly chop. Set aside.

3. Add the rapeseed oil to a saucepan
and heat over a medium heat. Add
the apples and onions, cook gently
for 5-6 minutes until soft.

4. Add the hazelnuts and breadcrumbs
and stir well. Remove from the heat,
add the parsley and season with a
little salt and pepper.

5. Set aside and allow to cool.

6. With a sharp knife, make a pocket along
the whole length of the pork fillet.

7. Stuff the pocket well with stuffing and
tie the fillet with string at around
1½ inch intervals, to keep it held to-
gether when cooking.

8. Place on a roasting tray and drizzle
with a little rapeseed or olive oil.

9. Season the fillet with a little salt and
pepper, cover with tinfoil and place in
the oven. Cook for 45 minutes, then
remove the foil and cook for a further
5 minutes.

10. Remove from the oven and lightly
wrap with tinfoil to allow the meat to
rest.

11. Now cook the pasta, following the
packet instructions.

12. Drain the pasta well and place back
into the saucepan. Add the olive oil,
lemon juice, parmesan and a little salt
and pepper.

13. Slice the pork and serve with the ta-	gliatelle.
